Red Chilli Powder

Description

This chilly powder have high quality, because it is made after careful cleaning of dried Chillies. To make this we have washed dried red chilies and Kashmiri chilly and then dried. Then it has sent to floor mill to make powder. No other ingredients other than these two type chillies. So it has high quality, spicy and colour. Red Chilli Powder is processed in low temperature grinding technology with no added fillers, your perfect companion for all your delicious dishes. Features

- RICH IN FLAVOUR : Enhance your regular and exotic dishes with the perfect spiciness of Vikramaditya Red Chilli Powder.
- SOURCED FROM BEST FARMS: Theikrmaditya Lal Mirchi Powder is sourced from the farms of Guntur (Andhra Pradesh) & Byadigi (Karnataka) to ensure premium quality spice.

Red Chilli Dry

Description

Dry red chili is a condiment that adds pungency and color to the food. It has some medicinal and homeopathic properties. We offer a uniform shape and size of red chillies. It is mostly used to temper dishes. The chillies have a sharp taste.

Byadgi chillies are one of the most popular chillies in India and are named after the town of Bydagi, which is located in the Haveri district of Karnataka. They also an essential part of Udipi Cuisine. The chilli offers a great shade of red colour to the curries, and is not very spicy.

Cumin Seeds

About this item

- Cumin seed is high in iron and contains plant compounds that are antioxidants. Studies have shown that cumin may improve cholesterol levels, promote weight loss, and help prevent diabetes.
- Cumin seed is an essential step in Indians dishes recipes where we use it as chawnk or tadka. Cumi seed is used in both meat and vegetable dishes, as well as in soups and sauces. A popular Indian recipe is jeera rice. Cumin seed is also a seasoning in middle eastern falafel.
- It can be used ground or as whole seeds. It imparts an earthy, warming and aromatic character to food, making it a staple in certain stews and soups, as well as spiced gravies such as curry and chili. It is also used as an ingredient in some pickles and pastries.; It has a warm, earthy flavor and aroma with a bit of both sweetness and bitterness.
